**ELIGIBILITY TAG CHANGES RELEASED.**

The purpose of the directive is to inform you that the changes to the Workforce Investment Act (WIA) Eligibility Assistance Guide (TAG) have been released over the Internet. The revised TAG is available in MS Word and PDF.

Two additional changes have been made since the changes were released for review and comment. Training and Employment Guidance Letter Number 14-00 Change 1 defined underemployed and interpreted/clarified the definition of out-of-school youth. As a result, local areas no longer have the flexibility to define the term underemployed. The text form field has been replaced with the federal definition. Since these changes are federal policy, they do not need to be reviewed.

If you have any questions, please call Latrice McKnight at (213) 738-3382.
